

5 Reasons Why You Should Switch to Signal

Authorised supplier of

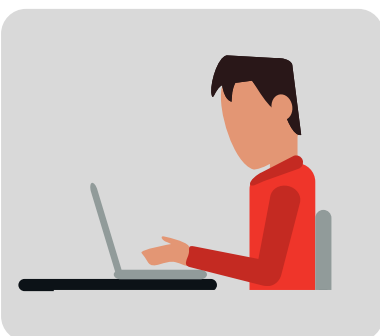

Authorised Supplier of BT

This means you can get BT's latest phone and broadband technology from us. Including super-fast broadband, leased lines and cost-effective phone systems. Here is the best part, instead of trying to get through to a BT call centre you will call us. We will give you full customer support!

Saving you money

We offer a free review on your existing landline and broadband services. We will do all the work and see where we could potentially save you money. One of our expert team will contact you giving you our recommendations and showing you where we could save you money!

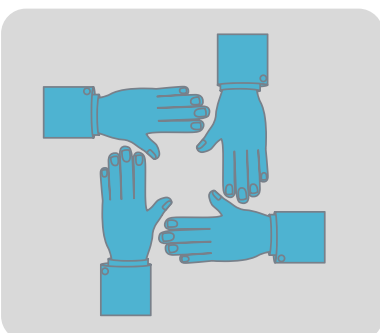

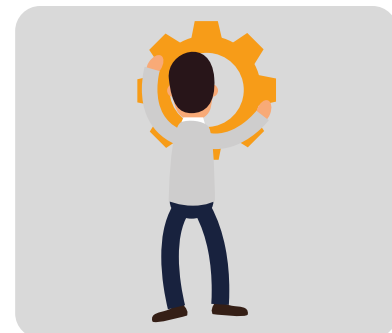

Dan the man

Dan is our resident broadband and telephone expert, he will be in charge of ensuring your business gets the solution and support. He specialises in finding your business the best possible products at the best price. Anything phone and broadband related, then Dan is the man to go to!

Hassle-free set up

We are experienced in ensuring that set up will go smoothly, a totally seamless process. We will plan everything so you don't have to. We believe in strong communication throughout, so everyone is on the same page!

Friendly & expert support

We have a team here in Stokesley that care about you and your business. Here you are a customer, not a number. No call centres, just one number and one of our friendly team will be on the phone in seconds offering you support and answering any questions. We love offering face to face support, we can come to you or you're always welcome here!
