

Dear Kate,

It is now over a year since we trusted you with the management of your mobile phones.

I am happy to tell you that the savings you promised are a reality. We have paid nearly £300 a month less than with our previous supplier. Also, the level of service and support we have received during this period has been exemplary.

Getting through to you is easy and your response time to our needs is first class. Keep this up and we can both look forward to a successful long term business relationship.
