

# BUSINESS BROADBAND CHECKLIST

---

Yes

No

Are you getting your desired speeds?

Have you been supplied with appropriate equipment? For example, a powerful router.

Is WiFi strong throughout your office?

Do you have a back up solution?

Is your broadband compatible with the latest phone systems?

Are you receiving a good level of support and maintenance?

Is your broadband secure for staff and guests? For example, is it password protected?

If the answer is 'no' to any of the above, get in touch. We can provide you with a solution that doesn't cut corners.
