

**CHIPCHASE MANNERS**

I just wanted to say how pleased I am with the way Signal have handled the switch-over from our old provider.

I have only ever had bad experiences of dealing with phone providers so Signal is a breath of fresh air, basically you have done what you said you would with no surprises.

That should not be a difficult thing to do but in my experience it has been hard to find in your sector!

Many thanks to the Signal team.
