

# Huawei P Smart (2019)

## What our experts say

"This device looks like a premium smartphone, however comes at a fraction of the price. We love the FullView display!"

## Signal Rating

## Overview

Huawei P Smart has a huge 6.21-inch display with an all screen design. Very similar to what you can find on the latest premium devices, this means no buttons on the front. You can't argue with the colours and brightness found when viewing this device. On the rear of the smartphone you will find a dual lens, AI powered camera set up. This will make it easy to capture the perfect shot whatever scenario or time of day.
