

LG V50 ThinQ

5G

What our experts say

"If 5G is available in your city we would definitely recommend this device!"

Signal Rating

Overview

High-speed 5G and dual screens ensure you can do more with your favourite videos, photos, game and apps. It is the only 5G device with an optional dual screen. The 4000 mAh battery means you can enjoy your 5G content for longer.
